## Purpose of the policy

This document is provided as an exams-specific supplement to the centre-wide equalities/disability/accessibility policy/plan which details how the centre will:

This must include a duty to explore and provide access to suitable courses, through the access arrangements process submit applications for reasonable adjustments and make reasonable adjustments to the service the centre provides to disabled candidates. Where the centre is under a duty to make a reasonable adjustment, the centre must not charge a disabled candidate any additional fee in relation to the adjustment or aid; <sup>†</sup>or any legislation in a relevant jurisdiction other than England and Wales which has an equivalent purpose and effect.

This policy details how the centre facilitates access to exams and assessments for disabled candidates, as defined under the terms of the Equality Act 2010, by outlining staff roles and responsibilities in relation to

- identifying the need for appropriate arrangements, reasonable adjustments and/or adaptations (referred to in this policy as 'access arrangements')

- adapting assessment arrangements;
- adapting assessment materials;
- the provision of specialist equipment or adaptation of standard equipment;

## THE BUILDING

Statement of need	Current provision
Ensure that the entrances to the centre and corridors approaching the examination rooms are well lit.	All corridors and main entrances are well lit and maintained regularly.
Lighting should be checked for suitability both during the day and for evenings.	The Site Manager is charged with ensuring that the lighting is fit for purpose and operational at all times the school is in operation.
Lighting should be evenly distributed, ensuring that it does not cause glare and shadows. This is particularly important for people with a visual impairment or with perceptual difficulties.	Lighting is evenly distributed.
Ensure that there is no lighting which may trigger seizures for those candidates with epilepsy.	The use of fluorescent lighting in any room can, when it malfunctions, cause flickering. In both main exams rooms the main source of lighting is via fluorescent lighting. Lights are checked at the start of each day and replaced or disabled if any light is failing / flickering.
Use tactile surfaces to highlight any steps, stairways or changes in level.	Fully compliant.
Make sure that any obstacles are removed from corridors to enable a wheelchair to gain easy access.	Fully compliant.

## THE BUILDING

If at all possible, try to arrange examination rooms on the ground floor of buildings, and at the very least ensure that they are located near emergency exits.	The main exam room to be used is the Sports Hall on second floor, with fire door exits nearby and exit immediately out to the fire meeting point. The Theatre and Drama Studio are occasionally used, these rooms are on the ground floor but have emergency exits in both rooms.
Where a private room has been arranged for an examination, check that the environment is suitable for the candidate. For example, is there enough room for a wheelchair and its supports? Is the decoration likely to result in discomfort or hyper nervous stimulation if the candidate has autism?	The walls in all the rooms are neutrally decorated and there is limited display around the walls. Any room in the school is accessible to wheelchairs, via a lift if not on ground floor.
Ensure that those who need to take medication during the course of an examination can do so in privacy and as speedily as possible.	Any student who needs to leave an examination room will do so under normal examination guidelines for students who need to leave. An adult will follow the student where they will be able to make use of the Medical Room (a private room).
Try to arrange examination rooms which are close to an accessible toilet. Be aware that many candidates may need adult changing facilities in the accessible toilet.	There are toilets located in close proximity to all main exam rooms.
Lighting in toilets should be adjustable as this is essential for candidates who are deaf blind.	Lighting within the toilets/Changing rooms is sufficient to ensure students can get changed and use the facilities properly. If however, we have such students, we will look at making the required adjustments.
Mirrors should be used sparingly in an accessible toilet as they can add to the confusion of perceptual problems.	There are limited mirrors in the toilets.
Check that there is also a facility to open the door in an accessible toilet from the outside in an emergency.	All locks are openly accessible from the outside in the event of needing to gain access in an emergency
Centre should ensure that both disabled candidates and staff are aware of the emergency evacuation procedures to ensure that disabled candidates can be safely evacuated from the building whatever their disability or impairment.	The evacuation procedures are provided to all students and staff before an examination series. It will be made clear that the disabled candidates will need to be given the required assistance in the event of an emergency.

## SEATING

Statement of need	Current provision
If you know that a candidate may become unwell during the examination because of the nature of their disability, try to ensure that you seat them close to the exits to make them feel more comfortable and to limit disruption for others.	Standard practice at the start of the examination series is to ensure that those candidates who may be unwell are seated next to the door such that they can exit the room with the least amount of disruption.
Make sure that there is sufficient space between desks and chairs to enable a candidate (or invigilator) who uses a wheelchair to enter and leave the area without difficulty.	Students who may require the use of a wheelchair will be allocated a seat near the main entrance to the room. There will always be a minimum of 1.25m between chairs and tables. If space permits, there will be more space given to those students in wheelchairs.
Make sure that there are chairs available outside examination rooms to enable those with mobility issues or those who may simply be experiencing particular stress to sit and rest before they enter the examination.	As students congregate in the Line-up area or the Canteen before the examination there is seating provided for students, both inside and out. It will be made available to any students who might have mobility issues before an examination.
Ensure that seating is appropriate and comfortable for those who may have a disability that affects seating and posture.	Where we admit students where seating and posture might be an issue, we will do all we can to ensure that there is seating available which meets their needs.

## SIGNAGE

Statement of need	Current provision
Make sure that all the signs for the examination and those provided by JCQ are suitably sized and adapted to meet the needs of candidates with a disability.	All signs are produced in both A4 and A3 format and displayed throughout the school to enable those students who might have visual impairments the opportunity to read and access the text.
Sign content should be simple, short and easily understood.	All signs produced are simple, short and easily understood.
Text and lettering should be in a clear, uncomplicated and reasonably sized font (12pt). Sans serif fonts such as Arial are recommended.	The school uses a minimum of Calibri, Size 12pt, for all their documentation and communications with parents and students.
The style, wording and design of signs should be consistent throughout the exam centre. This will help candidates to easily recognise signs as they move around the building.	All signs are, where possible, produced to the same standards and the same layout and design.
Signage should combine raised text, pictorial symbols, arrows and Braille.	This is an area we will be working on in the near future.
Braille signs should have a small tactile arrow on the left side.	This is an area we will be working on in the near future.
The colour of signs should contrast with the colour of the walls.	The walls of the school are all; blue. All examination signs are produced in white. They are a stark contrast to the colours of the walls and are easily identifiable.
Signage should be placed at consistent heights.	All signs are placed at chest height in holders to ensure that all students have the best opportunity to view them.
Make sure that signs which identify examination rooms are situated on the wall in case the door is open when a candidate needs to see the sign.	All signs are placed beside doors in holders made specifically for the purpose. Signs are also placed on the doors but only when there are signs in close proximity on walls.
Floor plans should be placed at main entrances and at designated areas within buildings, such as outside lifts and close to stairways. These should have easily distinguishable symbols to locate areas and should include instructions for visually impaired candidates to enable them to locate lifts, staircases, accessible toilets and examination rooms.	Maps are already in place to show you where you are in the building.

## EMERGENCY EVACUATION

Statement of need	Current provision
Think about evacuation procedures and ensure that all staff, including invigilators, know what procedures are in place for those with a disability, in particular for those who may need assistance to leave a building.	Invigilators, at the time of an examination, will be aware of which students might need assistance with leaving the examinations room should there be an emergency. The school has specific exit strategies and all invigilators are aware of them and will put them into place.
Procedures should be in place so that staff and invigilators know who is responsible for responding to emergency calls.	All invigilators know that it is the responsibility of the Exams Officer to liaise with SLT to make the call in light of an emergency. All students will remain in the room until such a time as the Exams Officer advise them otherwise (either in person or via the communications systems in place).
Make sure that when evacuation and emergency procedures are being explained to candidates, attention is given to appropriate explanation for those with a disability whose arrangements may be different.	Students have the processes detailed in their examinations handbook (given at the start of each Examinations Year). This is also explained to them in assemblies before the Examinations Season starts. Those students who might have specific learning difficulties or disabilities which might require them to have instructions explained in a different format will be spoken individually.
Fire alarms which have both aural and visual alerts should be installed. Consider making arrangements for a flashing visual alarm and/or a handheld vibrating alarm. Visit the Deaf Alerter website at <a href="http://www.deaf-alerter.com/website.htm">www.deaf-alerter.com/website.htm</a> .	In the event of an alarm all students will be made aware of the fact an alarm is in progress using whichever many methods required to assist those with learning/auditory/visual disabilities.
Pictorial symbols should be included on all fire evacuation signs. This will help people with learning difficulties, people with dementia and people who have difficulty reading English.	The school use the current legally acceptable signage with regards to fire exit and evacuation. Students should be able to follow the signs, or the instructions of the members of staff/invigilators.
All fire exit signs should indicate which exits are suitable for wheelchair users.	School is fully accessible to wheelchairs.
Ensure that all ground floor exits are level and are accessible to wheelchair users.	Fully compliant.
Make sure that staff are aware of where any 'evacuation' chairs are and that the chairs are located at identifiable points. All staff should be trained in using them.	The school does not, at this time, have an evacuation chair. There will be measures put into place, and sufficient training, to ensure that any person who requires evacuation, will be able to do so without the use of

	an evacuation chair. We will, however, look into the possibility of purchasing such things in the future.

## RESOURCES

Statement of need	Current provision
Where computers are being used for an examination, for example in the key stage 4 ICT test, ensure that hardware and software has been properly adapted and tested for those who may use them, such as people with a visual or aural impairment.	Computers at HA are used infrequently for examinations. We use all available tools to ensure fair and appropriate access to computer facilities for our students.
Ensure that there are backups and alternatives in case support equipment ceases to function.	We have currently back up all systems within the school. We have technical support available on a 'needs basis'. A system is soon to be installed to ensure that backups happen outside of school at regular intervals.
